**COST**

**PROGRAM FEE:** $4,325

*does not include tuition for 6 credit hours, the study abroad administrative fee or airfare*

**DESCRIPTION**

The legacy of Classical Greece looms large in the contemporary world. Building on the achievements of earlier civilizations in the Near East and north Africa, the ancient Greeks developed many of the literary, artistic, philosophical, political, legal, and scientific projects that have shaped our contemporary life. Positioned in the extreme south and east of Europe, Greeks have interacted with other European, Asian, and African cultures for thousands of years, making the country an ideal place for cross-cultural study.
